Tragfähige Zahlvorstellungen fördern

Zahlenkarten

Zu den Zahlen von 0 bis 20. Auf der Rückseite der Karten befinden sich passend gefüllte Zwanzigerfelder. Die Zahlenkarten können für erste Übungen im Anfangsunterricht und für Spiele in Klasse 1 und 2 eingesetzt werden. Am besten die Papierbogen vor dem Auseinanderschneiden laminieren.

Sicher bis 100

64 quadratische Karten – je vier Zahldarstellungen zu 16 ausgewählten Zahlen aus dem Zahlenraum bis 100. Mit den Karten lassen sich verschiedene Spiele in Fördergruppen und in Freiarbeitungsphasen, aber auch im Klassenverband durchführen.

Idee: Silke Ruwisch, Susanne Schaffrath

30 Seiten extra
